ServaX

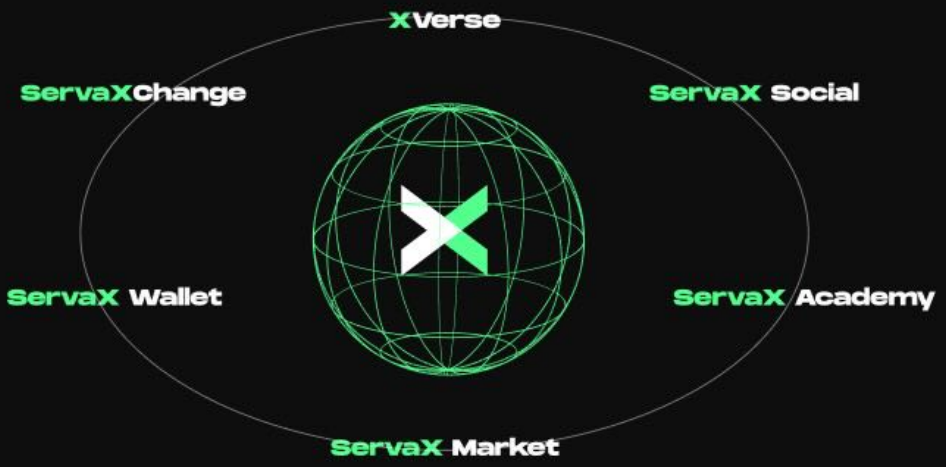
What is ServaX?

ServaX is an all-in-one ecosystem, allowing you to communicate with your family, friends and loved ones, transact, learn, and do so much more. The only Jack of all trades that masters them all.

At ServaX, we realize that it is pretty impossible to seperate communication, financial transactions and learning from our day to day lives. Think about how many times you talk, pay and get paid, and learn in one day.

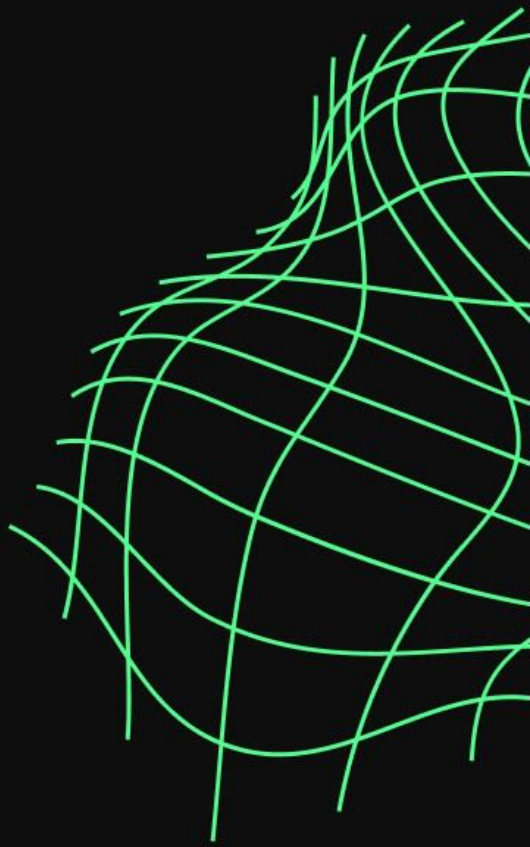
Imagine doing all that in one place with the security that the blockchain offers. That's ServaX.

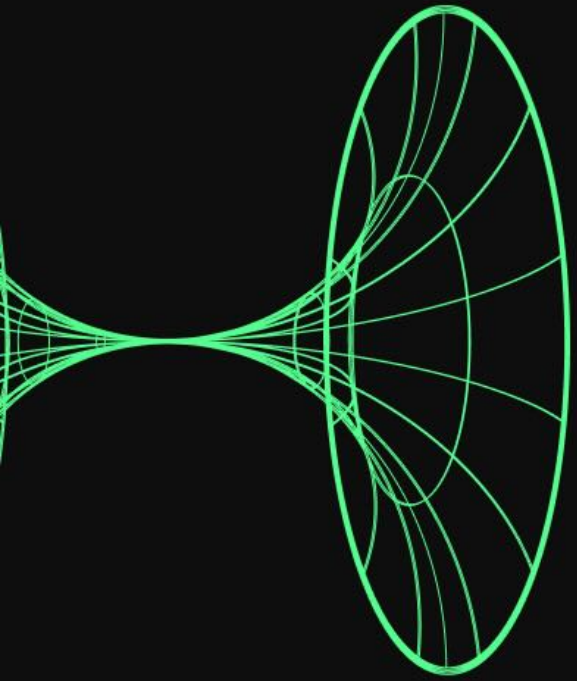
Introducing ServaX



ServaX Academy

This is the learning platform of ServaX. This free learning platform allows our users to learn and develop themselves in any area of their financial lives - with certificates on completion. Expert users in various fields will contribute to this platform and earn ServaCoin tokens as rewards.



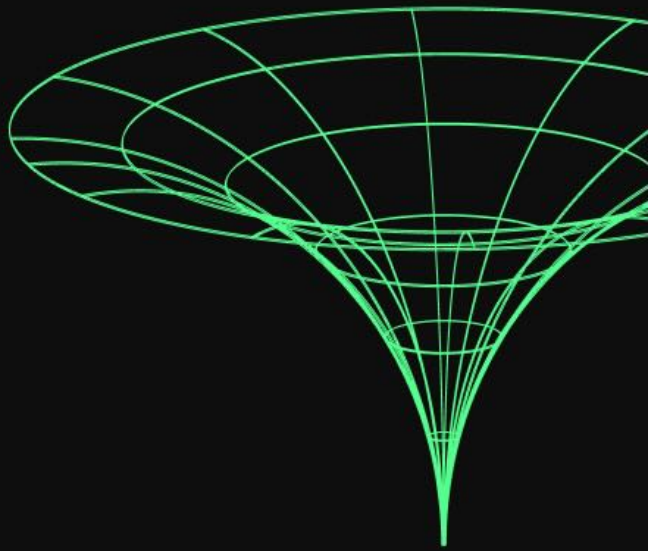


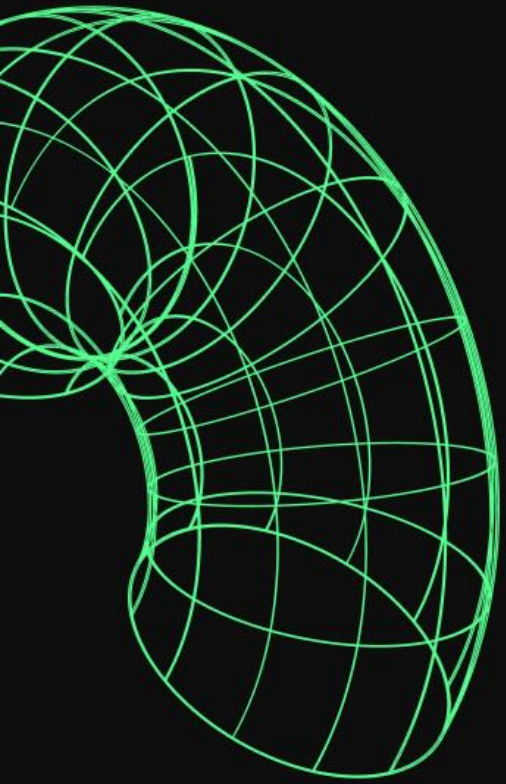
ServaX Social

This is the interacting and communication arm of ServaX. It is an end-to-end micro blogging site, the source code which will be made public upon completion. Our features include video and audio conferencing. Users can add, follow and react to other users.

ServaX Wallet

With ServaX Wallet, users can check prices, trends and other trading parameters for all tokens of interest on the in-built chart feature. Users can also store their NFTs on this Multi-Chain wallet. Users can also send tokens within the ServaX ecosystem at lightning speed.



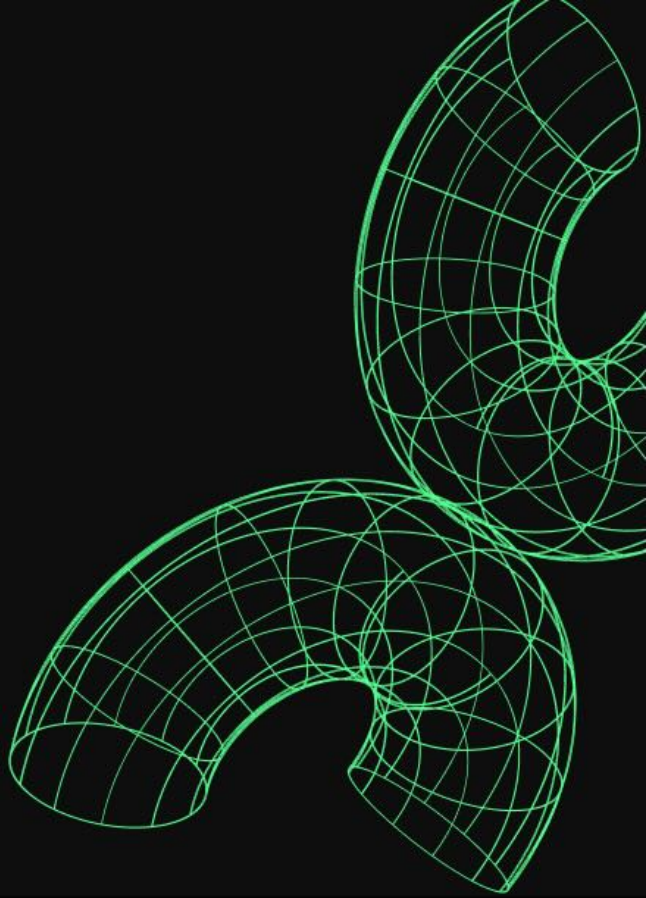


ServaX Market

Create, sell and store your NFTs on ServaX. People can find NFTs for each user since each user with an NFT has a direct button on his collection. Payment system powered by the ServaX ecosytem, and is fast and secure.

ServaXChange

Using an effective Order Matching Engine (OME) we will be able to carry out up to 1.5m transactions per second. Features include fiat, sport, futures, margin trading, DEXes and much more - with the loweest possible trading fees.



XVerse

ServaX's community focused MetaVerse project
- coming soon!

UTILITIES

ServaXNFT Gateway

ServaXNFTs – aside from staking utility – allows holders gain access to all paid services on ServaX at no cost. The NFTs come in Bronze, Silver, Gold and Platinum tiers, with a lot more fun utilities premiering on our roadmap!

Membership Rewards

ServaX is a network of high value people, under an ecosystem that allows them to communicate and transact. Our entire model is built around community and because of this, we incentivised referrals using ServaCoin, so we can grow our community and the value we offer to members. As our community grows, so does ServaCoin, and so do the value of referral rewards.

ServaCoin

ServaX has a governance token – ServaCoin created on the Bitgert Chain. The total supply caps at 200,000,000.

Prince Peter Antai

CEO, Founder ServaX

Peter is a business developer, trader and an instructor. As a business developer, he has been instrumental in the creation of several businesses and as a trader, he has been trading crypto and forex for three years. Due to his love for tech, he found himself immersed in blockchain technology, when he discovered that it was meant for everyone.

Harry Bright

COO, Co-Founder ServaX

A renowned community development strategist and crypto enthusiast, Harry has worked with a ton of crypto projects and as a result has built quite a reputation in the crypto space.
